AND THE WIND BLOWS

Because of **COVID-19**, we had to surf in another direction that we previously thought about our project. We had to go digital. Our main goal coming to Constanta, was to help the community improve their **online skills**, so going digital without knowing how they go digital, was the first task that we need to solve. In a normal situation, we can reach to the citizens and ask them, but because social distance is the norm, we found a way to connect with them using the **Zoom** app.

ZOOM

But how to organize a **good** and **not boring** Zoom Meeting?

- 1. Pick up your focus:** for us, the first focus was to understand how we can create learning content and how to bring something new to the youth people of Constanta.
- 2. Choose you target group:** kids from 9 to 15 years old with a lot of time and a lot of energy.
- 3. Invite local people** that knows the target group like teacher and parents.
- 4. Create good marketing.**

Happy Ending

Luckily, we had a good audience and a wonderful chat. The **feedback** and the **inputs** from the participants allowed us to think bigger with the project. Also, it helped us understand what we can create and what kind of direction to follow. With a direction, we installed a process to achieve our objective. Next month, we will bring you all the crazy adventures that we are facing creating this **project** and some **tips** to help you if you are bored in the house.
