Social Media Behavior

This month, we were lucky to meet young people of Constanta while a digital workshop we create and called Social Media Behavior. The teacher contact us few weeks before to organize an interesting activity together. Our project focus on digital media, this is the field we choose for the activity, precisely social media. We thought that was an everyday subject young people, and maybe they are the first concerned by this kind of media.

Photo of the month

But what was the goal of this workshop ?

Not simply to share informations about social media but through some questions to make them reflect about their own behavior on social media and respond to this question : « why do you use social media ». The answers were really different from one student to the other and made them realize that there is not only one way to use social media.

Finally Bucharest

The last week-end of May we had the occasion to discover a little bit the country. The restrictions decreasing we decide to finally visit Bucharest that we only had overview from, when we get out of the plane. First impression: this city is far different from what we know. Bucharest seems to be a real mix of cultures of Europe, the architecture of the building reminds of Germany, some of France, some of Italy. Parliament Palace makes us feel really small, did you know that it is third biggest building of Europe? Like in a lot of cities in Romania, Bucharest has a big concentration of churches inside the city. This trip makes link between the member of the team tightened. It was for us our first trip together and the occasion to improve our knowledge about Romania, but also about other projects made all around the country.

THE SOUNDTRACK OF OUR MONTH:

1. Sick and Tired – Iann Dior feat Machine Gun Kelly
2. Marionette – Random feat Carl Brave
3. Not Fair – Lily Allen
4. Ya No Te Hago Falta – Sen Senra
5. Il Ballo Delle Incertezze – Ultimo

Volunteer of the Month

- ★ The quote who defines you:
Never say never
