20th - 25th AUGUST 2021

PRESENTATION OF THE "BE smART!" TRAINING FOR YOUTH WORKERS & LEADERS

1. SHORT DESCRIPTION OF "BE smART!" TRAINING

Project BE smART! is a training for youth workers, which is dedicated to the development and strengthening of visual - spatial or. imaginative-creative intelligence with the help of 5 techniques and methods from art (drawing, painting, collage, architecture and sculpture) for young people that we work with or we get in touch.

The human mind is made up of different intelligences. According to H. Gardner, these are linguistic, mathematical-logical, visual-spatial, musical, interpersonal, internal personal, as a sense of nature and existential centre (https://isio.acs.si/doc/N-485-1.pdf). K. Geržan defines them as rational, social, emotional, spiritual, intuitive, imaginative-creative, physical-motor, aesthetic and intuition of irony (95 tez za izhod iz slepe ulice vzgoje in izobraževanja, 2019). With the project, we want to raise awareness of multi-intelligence and put the young person at the forefront, adapt methods and ways of working to their needs, strengthen their weaker intelligences and support the development of their strong intelligences.

2. PURPOSE OF "BE smART!" TRAINING

The purpose of the project is to train youth workers to use these methods in working with young people and thus influence their development and consequently the development of the society.

3. OBJECTIVES OF "BE smART!" TRAINING

- 1. Develop a holistic approach to young people to strengthen the visual spatial or. imaginative-creative intelligence through various types of artistic methods and techniques (drawing, painting, collage, architecture and sculpture). Participants will learn about and master 5 methods and techniques of using art to strengthen this intelligence.
- 2. Transfer methods and techniques of art through non-formal to formal education (for teachers and professors). We will achieve this goal by carrying out joint activity within the training for the transfer of knowledge about methods and techniques of art, which are also useful for formal education for teachers and professors from the regional environment.

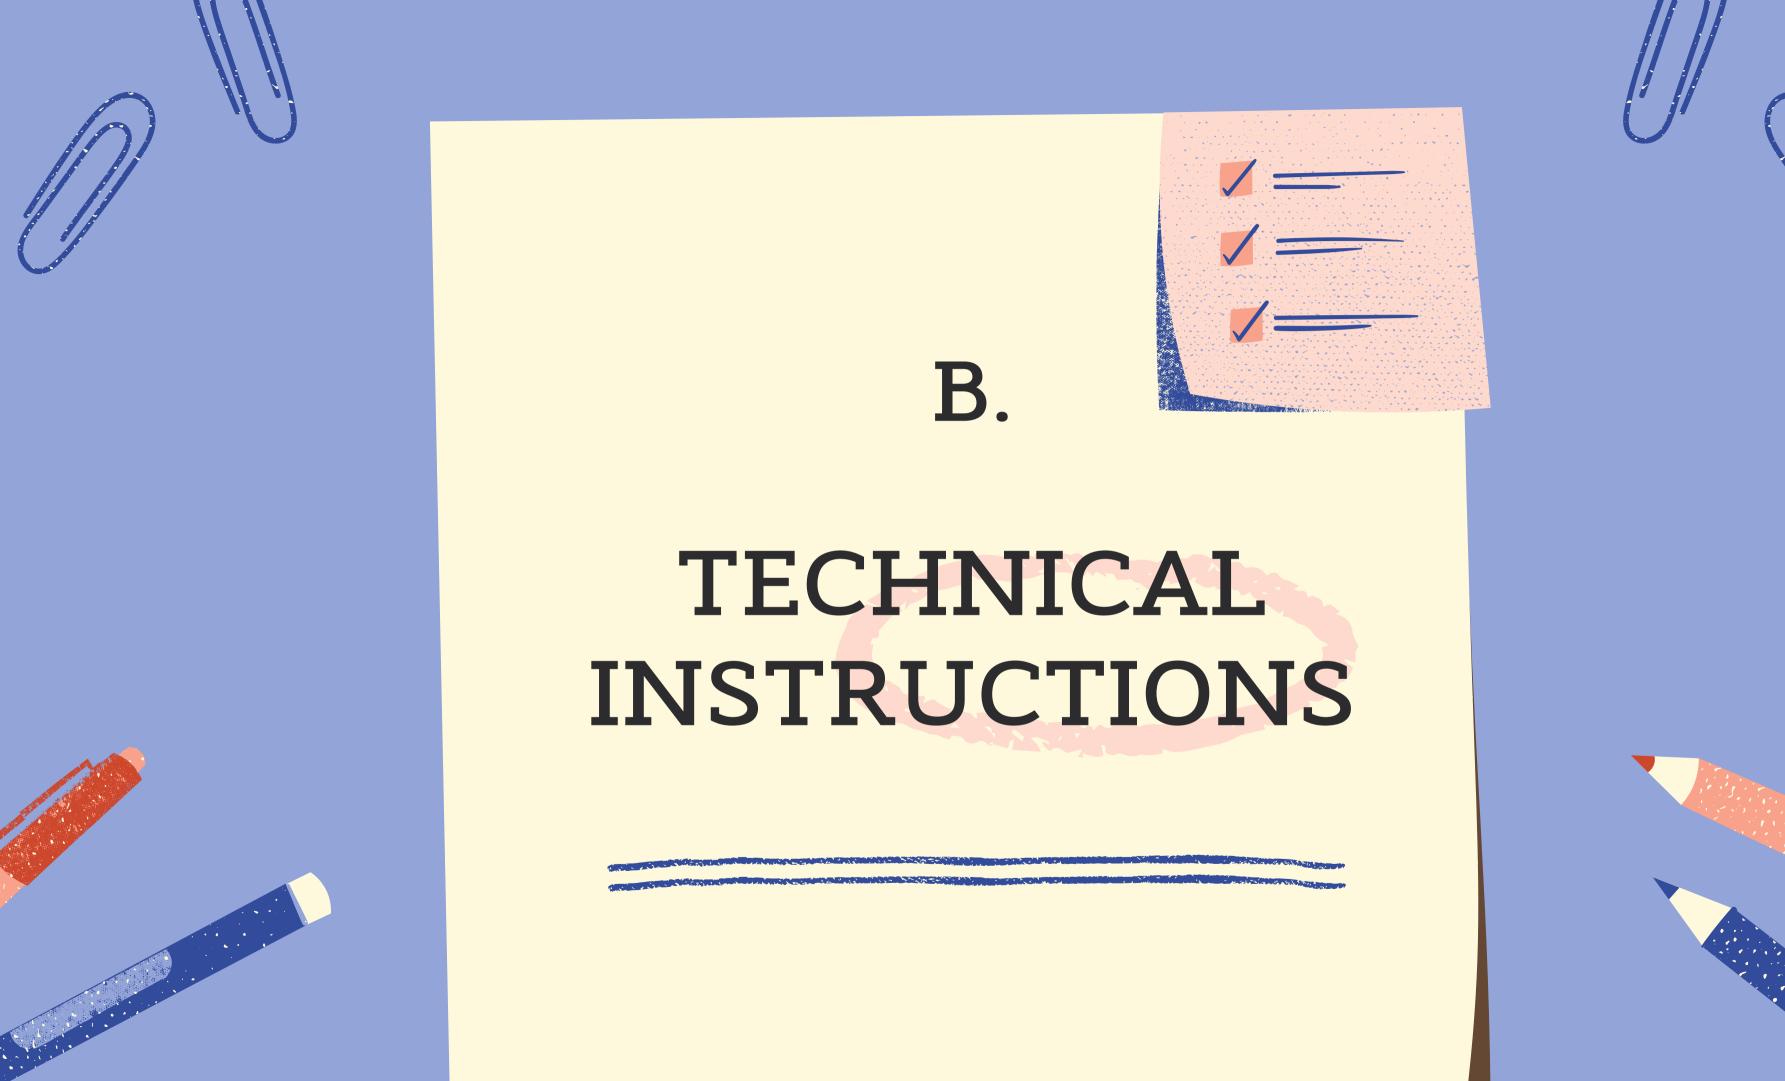

The training will include 13 partners from 12 countries (Spain, Romania, Greece, Italy, Northern Macedonia, Turkey, Portugal, Latvia, Bosnia and Hercegovina, Slovakia, two organizations from Lithuania and Slovenia).

5. EXPECTED RESULTS OF THE PROJECT

- § Developed training curriculum.
 - § Prepared training report.
 - § Signed partnership agreements.
 - § Transfer of good practices between organizations.

6. THE EFFECTS ON PARTICIPANTS

- § They will get to know the concept of different intelligences according to Gardner and Geržan.
- § Get acquainted with 5 methods and techniques in the field of art that will be able to be used in everyday contact with young people (drawing, painting, collage, architecture, sculpture).
- § They will get to know different approaches in working with young people (representatives of different organizations and cultures).
- § Develop an awareness of openness, tolerance, dialogue, cooperation.
- § Develop new ideas with other participants and establish new collaborations.
- § Strengthen their creativity, get to know any fears they have.

1.PARTICIPANTS

Participants are chosen by partner organisations. We encourage you to select youth workers and youth leaders that work with young people on regular basis and that will be active in the future as well, so they will be able to use gained knowledge from the training daily and transfer it to your organisations.

Each participant has to fulfil the application in the link below:

XXXXXX

2. FOOD AND ACCOMMODATION

Participants will be accommodated at Prvine hotel. They have rooms with 2 - 4 beds. We will have all meals organised by them (breakfast, lunch & dinner) and we will use their seminar room as well as outdoors for our activities. We will follow dietary restrictions (vegetarians, vegans, any allergies etc.).

At that time they will probably be hosting also some other guests, so we will follow all the covid-19 rules that will be in force at that time.

4. VISA

Turkish partner organisation please inform me about the documents your participants will need to come to Slovenia. Keep in mind that it would be great to have the information until the end of June due to the holidays in July in August in Slovenia.

5. WEATHER

It will be summer here in August, but the accommodation is in the hills (almost 700 metres above the sea level), so do not forget to bring something warmer to wear for the evenings and some sport shoes.
