WHAT IS DEA ABOUT?

Most of professions nowadays are greatly affected by the automation, digitalisation and robotisation. New jobs that require special knowledge and skills in the digital environment are appearing every day. Robots, artificial intelligence and automation are likely to continue to replace mundane and repetitive jobs, while those seeking work will need to acquire and regularly refresh their digital skills in order to maintain their employability. The digital transformation of the economy means that almost all jobs now require some level of digital skills.

The primary aim of the *DEA* project is the education of youth workers that will be able to transfer the gained skills, tools and knowledge towards young new digital entrepreneurs. The training course that will be implemented will in long run enable young people to engage in entrepreneurship through digital environment through the use of digital tools.

OBJECTIVES OF THE DEA

OBJECTIVE 1

To promote EU youth policies, such as the frameworks on digital and entrepreneurship competences

OBJECTIVE 2

To modernize youth work through international cooperation and networking among the partners as well as by sharing the resources with consortium's stakeholders

OBJECTIVE 3

To improve both youth workers' soft skills and ICT skills by engaging them in digital activities through the use of digital content and digital tools.
