

TECHBYRINTH

After 18 months of hard work, our project is reaching the finish line! The partners of the consortium are really proud with the results achieved and are already planning new projects on the digital topic!

OR YOU CAN DOWNLOAD THE APP DIRECTLY FROM THE APP STORE OR PLAY STORE!

PILOT PHASE I

During the pilot phase 1, youth workers, part of the partners' organisations, but also from associated partners were trained locally on how to use the Educational KIT and the APP as complementary resources to work with youth in the development of their digital competences and overcoming digital addictions. These trainings were done either on-site, either online or hybrid, according to the partners' countries restrictions. At the end of the training, youth workers provided their feedback on the results, in order to improve it.

PILOT PHASE II

During the pilot phase, the youth workers previously trained, implemented the activities of the Educational KIT with the youth they work on a regular basis and have used the APP as an evaluation and educational tool to determine their digital skills and possible addictions, but also to learn on how to become responsible digital citizens.

At the end of the workshops, participants have provided feedback as well, which helped us to improve the APP, according to the users' opinions.

YOU CAN FIND AND DOWNLOAD THE APP AND EDUCATIONAL KIT FROM OUR PARTNERS' AND PROJECT'S WEBSITES:

MULTIPLIER EVENTS

In order to guarantee that our results reach as many interested organisations and youth workers and it ensures the sustainability and the transferability to other educational fields, partners have organised multiplier events in high schools, universities and in collaboration with other youth associations. In total the multiplier events managed to reach more than 120 youth practitioners from the 3 countries involved (Spain, Slovakia and Romania). During the event, the participants received information about the project and the results and also downloaded the APP and went through the quiz.

TRANSNATIONAL PARTNERS MEETING

On 4th of April, TECHBYRINTH partners met for the last time in Constanta, Romania. The meeting was hosted by TEAM4Excellence and had the goal to evaluate the project, the cooperation and the results achieved. The partners are really enthusiastic about the results – the APP and Educational KIT meant to support youth workers in their work to develop youth digital competences and overcome digital addictions.
