

DIFA55+ ‘Improving the skills of a digital facilitator’

Transnational Project Meeting 2

On September 22, 2022, [Sarıçam Halk Egitimi Merkezi](#) organized in Adana, Türkiye, the second Transnational Project Meeting within the Erasmus+ Partnership for Cooperation “Digital Facilitator for Adults 55+” project.

At the meeting participated delegates from partner countries:

- [TEAM4Excellence](#) from Romania
- [Formative Footprint](#) from Spain
- [Voluntariat Pentru Viata](#) from Romania
- [Saricam Halk Egitimi Merkezi](#) from Türkiye

The purpose of the activity was to conduct an interim evaluation of the partnership and its results. At the beginning of the meeting, TEAM4Excellence, the coordinator of the project, presented the Project’s overview since the Kick-off Meeting, and the project activities completed so far. After that, each partner presented the project’s progress in their countries. We talked about how to better address the needs of educators and adults 55 to develop the following project results.

The first result of the project is ready and consists of a Digital Facilitator Toolkit. The toolkit contains the following:

- Information about the DIFA55 project
- Methodology
- 20 good practices selected based on a common set of criteria: effectiveness, inclusiveness, innovation and transferability.

- The survey and its results and findings after 150+ respondents filled in our survey questionnaire shared during awareness campaign, expressing their learning preferences, helping us to understand adult learners readiness for digital transformation.
- The Competence Map
- A study prepared by TEAM4Excellence

The toolkit was distributed at the Multiplier Event the following day, September 23 in Adana, Türkiye. The event was attended by both delegated partners and 30 participants representing adult educators, adult education organizations and adult learners.

We started preparations for the second project result, which includes a Web App that allows adults to identify the level of understanding of the use of digital technology, providing advices for improving their online behaviour. To achieve this, Google forms in different languages will be prepared. To collect responses, 150 participants will use the platform and complete a self-assessment questionnaire at the end. Self-assessment questionnaire will be available on the platform. An event will be organized and at the end the participants will be asked to answer the questionnaire.

At the end of the meeting, participants discussed the Interim Report and made the dissemination plan and strategy for the next stages of project implementation. The next Transnational Project Meeting is scheduled to be in Romania, on 23 May 2023.
