

DIFA55+ Get Everyday digital!

Transnational Project Meeting 3

On May the 23rd 2023, Formative Footprint organized in Valladolid, Spain, the third Transnational Project Meeting within the Erasmus+ Partnership for Cooperation “Digital Facilitator for Adults 55+” project.

At the meeting participated delegates from partner countries:

- [TEAM4Excellence](#) from Romania (T4E)
- [Formative Footprint](#) from Spain (FF)
- [Voluntariat Pentru Viata](#) from Romania (VPV)
- [Saricam Halk Egitimi Merkezi](#) from Türkiye (SHEM)

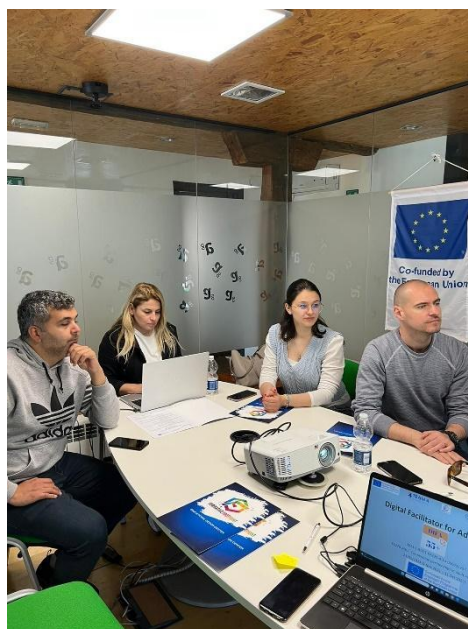

The purpose of the activity was to conduct an interim evaluation of the partnership and its results. At the beginning of the meeting, TEAM4Excellence, the coordinator of the project, presented the Project’s overview since the Second Transnational Meeting of Project Partners in Turkey, and the project activities completed so far, with special remarks to the test phase of PR2 – “[Everyday Digital Skills Assessment - Web App](#)” by more than 150 adults over 55, and the validation of it by more than 40 adults’ educators.

After that, the project coordinator introduced the third and last result of the project methodology, which will be a guide for educators in two parts: educational materials and video

tutorials for enhancing the 55+ adult learners digital skills. The guide will foresee the creation of content by all the project partners – with respect to their expertise - starting from the 5 areas of DigComp (The European Digital Competence Framework for Citizens):

- Information and Data Literacy
- Communication and Collaboration
- Digital Content Creation
- Safety
- Problem Solving.

Once PR3 will be completed in its first version, project targets groups will pilot test it and validate the result, proving enriching feedback for the last PR’s ameliorations. Lastly, the guide for digital facilitator will be available in a Moodle, where educators will be find the content in English, Romanian, Spanish and Turkish.

During the meeting in Valladolid, partners also discussed the planning and organization of the project Multiplier Events: the first was organized by SHEM in Adana in September, while the following events have been programmed for June in Spain, led by Formative Footprint, and in Romania at Constanta and Marasesti in September 2023, held by TEAM4Excellence and VPV.

The events will provide the partners organizations with a space and a moment to share and test with adults’ educators and 55+ adults who are willing to implement improvements in their digital routine, may that be linked to the educational setting or the day-to-day one.
